

OUR MISSION

To fight poverty and childhood hunger in single mom families by giving women a hand-up with a career education.

OUR VISION

To assist single mothers in finishing college or begin a career certification program, so they can reach their full potential, become financially self-sufficient and provide well for their child.

OUR STORY

Hope for Single Moms was born from the privilege I had of walking alongside our daughter, who became a single mom after her freshman year of college. My husband and I witnessed her financial struggle as a single mom and offered her the opportunity to finish college.

The HSM program developed from seeing Christina's needs as a student parent.

Our first 2 families.
Leslie & Lincoln (L)
Kennedy & Knox ®

Thank You!

For every dollar you invest in our families, Hope for Single Moms anticipates a \$4 return to society in decreased in government assistance and increased taxes paid.

When children are well-fed, they thrive.
And isn't that what we all want!

We believe in their success!

DO YOU?

OUR GOAL

For every single mom family to be able to afford housing and nutritious food.

WE ARE ABOUT HOPE!

*We are about opportunities,
families and goals,
about creating possibilities,
where otherwise there are none.*
