

OUR MISSION

Is to invite you to walk alongside a single mom on her student parent journey, to provide her the tools to be successful, to give her hope, encouragement and have children who thrive.

OUR VISION

HSM uses a teach-a-woman-to-fish approach. A career education means a better-paying job. Her children aren't hungry and can focus on school. It means moms are home evenings & weekends, cooking meals and helping with homework. Children are off the streets.

Your donations of time, talent and treasure help create strong families. It means leaving a legacy of caring and West Michigan a better place for your children and grandchildren.

OUR STORY

Hope for Single Moms was born from walking the student parent journey with my daughter. The program was developed as a result of the need for more resources for student parents.

For every dollar you invest in our families, Hope for Single Moms anticipates a \$4 return from a decreased need for government assistance and an increase in taxes paid.

When children are well-fed, they thrive!
And isn't that what we all want!

We believe in their success!

DO YOU?

OUR GOAL

For every single mom family to be able to afford housing and nutritious food.

WE ARE ABOUT HOPE!

*We are about opportunities,
families and goals,
about creating possibilities,
where otherwise there are none.*
